Date & Time:

Wednesday, September 30 | 11:00 AM &ndash; 12:00 PM ET

The GBTA Risk Management Committee will host an open discussion about the realization of uncovered gaps in their risk management program as a result of this pandemic. Key questions will be addressed, such as: What is the organization's, suppliers' and traveler's role in mitigating health and safety risks? What safeguards must be in place before putting our team back on the road? How have your policies, business relationships, and processes changed? Do you have a business contingency plan if one of your suppliers or preferred programs experiences change? Do you have a business plan for a pandemic? Attendees will have the opportunity to ask questions and leave with realistic implications and coping strategies from travel disruption in a COVID-19 world.
